

Mathéo LIN-TENG-SHEE

Curious, meticulous and serious student

Student at ENSEEIHT. I am curious, pushing myself to know and understand everything around me. This allows me to quickly acquire the necessary skills and to adapt very quickly to a position. This curiosity also allows me to keep up to date in the areas of digital required although they are changing rapidly nowadays. In addition, sports have brought me great work rigor as well as a will to surpass myself, pushing me to always look back on the work done to try to improve myself.
