

Mobility Roadmap: EETAC Castelldefels (UPC), Spain

Program: Academic Exchange (M1 S8) — Focus: Aerospace & Telecom Engineering

1. Academic & Personal Goals

- Master advanced engineering topics in a top-tier Spanish institution.
- Adapt to a new cultural environment, across both teamwork and personal interactions.
- Develop international teamwork and professional agility.

2. Anticipated Cultural Challenges

Challenge A: Polychronic Time Management

- Flexibility with schedules and project deadlines.
- Risk of inner stress or last-minute rushes.

Challenge B: Communication & Debating Style

- High emotional expressiveness and vocal directness.
- Risk of misinterpreting passionate debates as a personal conflict.

3. Conflict Management Strategy

- **Structural Alignment:** Establish a clear team protocol on day one with intermediate milestones to prevent deadline stress.
- **Active Listening:** Separate emotional intensity from the actual data/ideas during group debates.
- **Thomas-Kilmann Style:** Apply an *Integrating/Collaborating* approach to combine flexibility and project success.

4. Skills Golden Tip

Skills targeted: Intercultural Communication, Emotional Flexibility, Project Négociation.

GOLDEN TIP FOR EETAC

"Do not mistake a flexible schedule for lack of commitment, and never mistake a passionate discussion for a personal attack."
